3 months

The AC angle remains occludable on gonioscopy.

No further laser

ALPI

No further laser

6 months

Final visit Attended by all the participants.
Figure 4

This figure illustrates the change in AOD (mm) over time (weeks) for different conditions:
- Treated 500S
- Untreated 500S
- Treated 750S
- Untreated 750S

The graph shows a trend with time, indicating how AOD varies in each condition.
